

Date: 20. December 2019

To whom it may concern

We hereby inform you that the entire PETRONAS Hydraulic series from Petronas Lubricants complies with the requirements requested by NAGEL Machines GmbH in its reference document N 2710.1983.

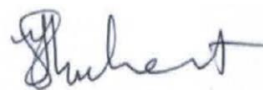

This recommendation was confirmed on 28. October 2019 by Dr. Günther Roth, Head of Technical Department at NAGEL Machines, Nürtingen/Germany.

The PETRONAS Hydraulic series is formulated with selected high-quality base oils enhanced with robust anti-wear, anti-oxidant, anti-rust and anti-foam additives. This fluid provides excellent protection against wear as well as stable performance over extended drain intervals.

Sincerely

Karlfried Fuchs
